EMODnet Biology: an EU service for the marine biology community and beyond

Session INFRA: Marine environmental infrastructures for observation data (data management and access)

Joana Beja, VLIZ/EMODnet Biology coordinator

27th to 29th May 2024, IMDIS (Bergen, Norway)

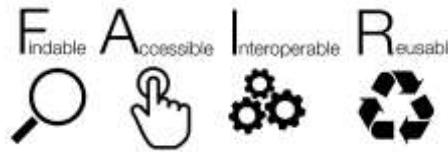

What is EMODnet?

(<https://emodnet.ec.europa.eu/en>)

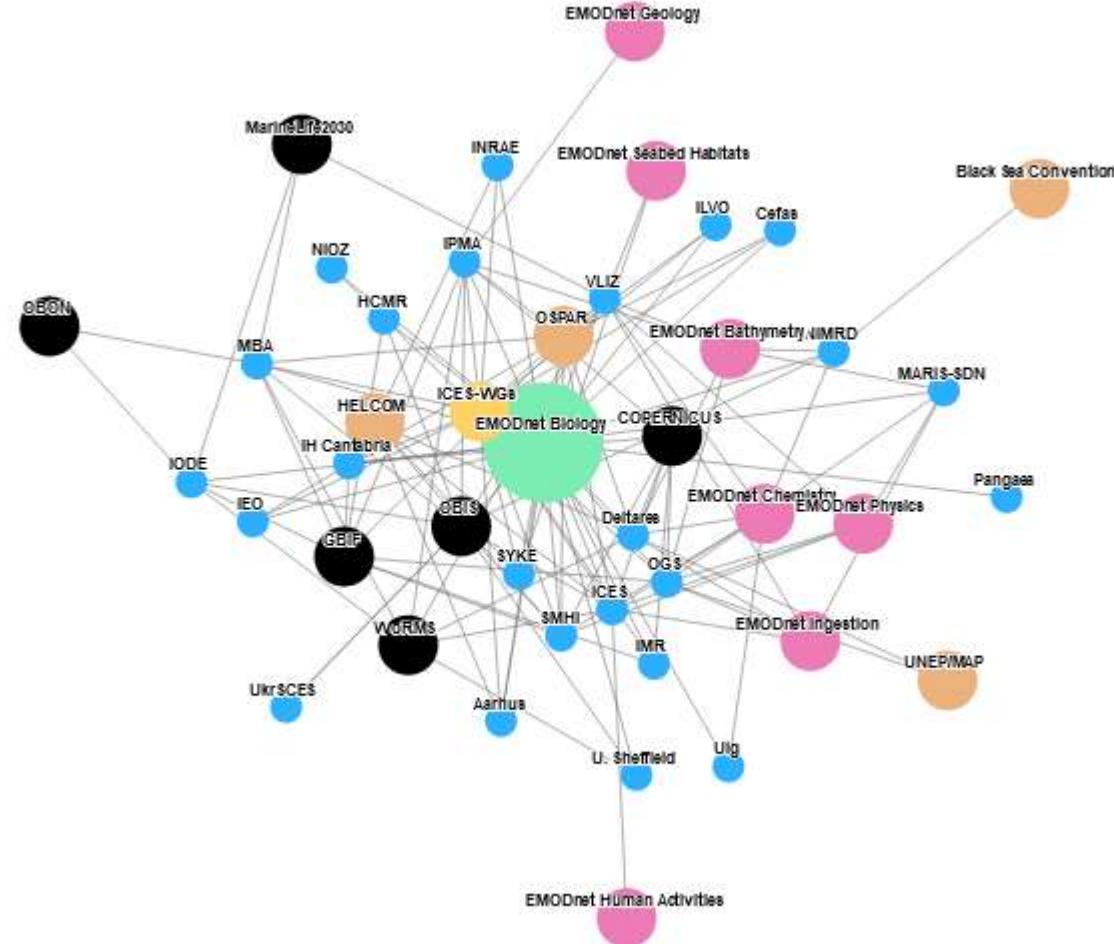

- EU service for in situ marine data
- 7 thematic domains: Bathymetry, **Biology**, Chemistry, Geology, Human Activities, Physics, Seabed Habitats (+ Ingestion service)
- Network with more than 120 partner organisations and 30 Associated Partners
- Provides free, unrestricted access to in situ marine data and data products
- Adheres to **INSPIRE** and **FAIR** data principles and webservices follow **OGC** standards

What do we do in EMODnet Biology?

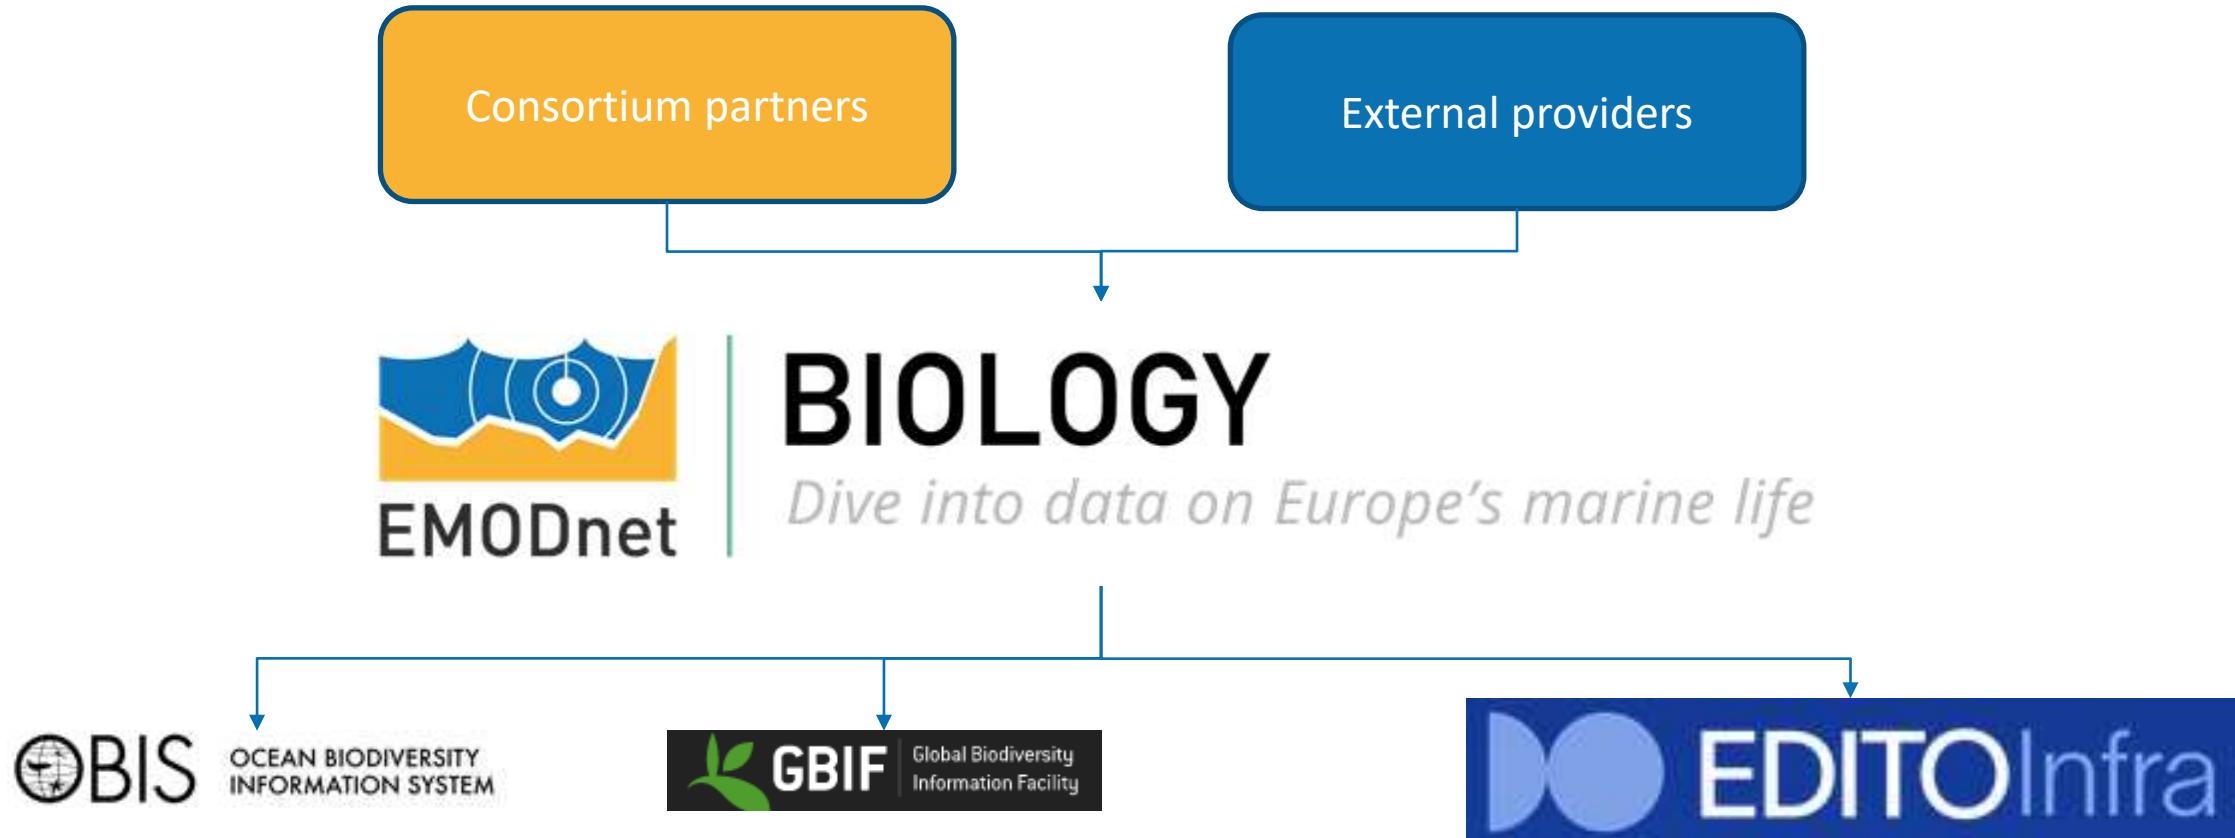

Overview

- Consortium with 24 partners
- Publish marine biodiversity data
- Create biodiversity data products
- Provide training and create guidelines for data providers and product creators
- Publish informative material
- Support the EU member states, EU institutions and Regional Sea Conventions with their work

Data flows

Data Submission and Publishing

What do we do in EMODnet Biology?

Data Publication

- Focus on European Seas but we accept data from anywhere in the world's oceans
- Target primarily data from 9 sub-themes

- Data types: Observations, acoustic, tracking, imaging, ... and **genomics**

Data

- Output in DwC OBIS ENV
 - https://manual.obis.org/data_format.html#obis-holds-more-than-just-species-occurrences-the-env-data-approach
- Vocabularies
- Taxonomy-> WoRMS
 - www.marinespecies.org
- Event locations-> Marine Regions
 - www.marineregions.org
- Biotic and abiotic measurements and facts-> BODC NVS2
 - <https://www.bodc.ac.uk/resources/vocabularies/>

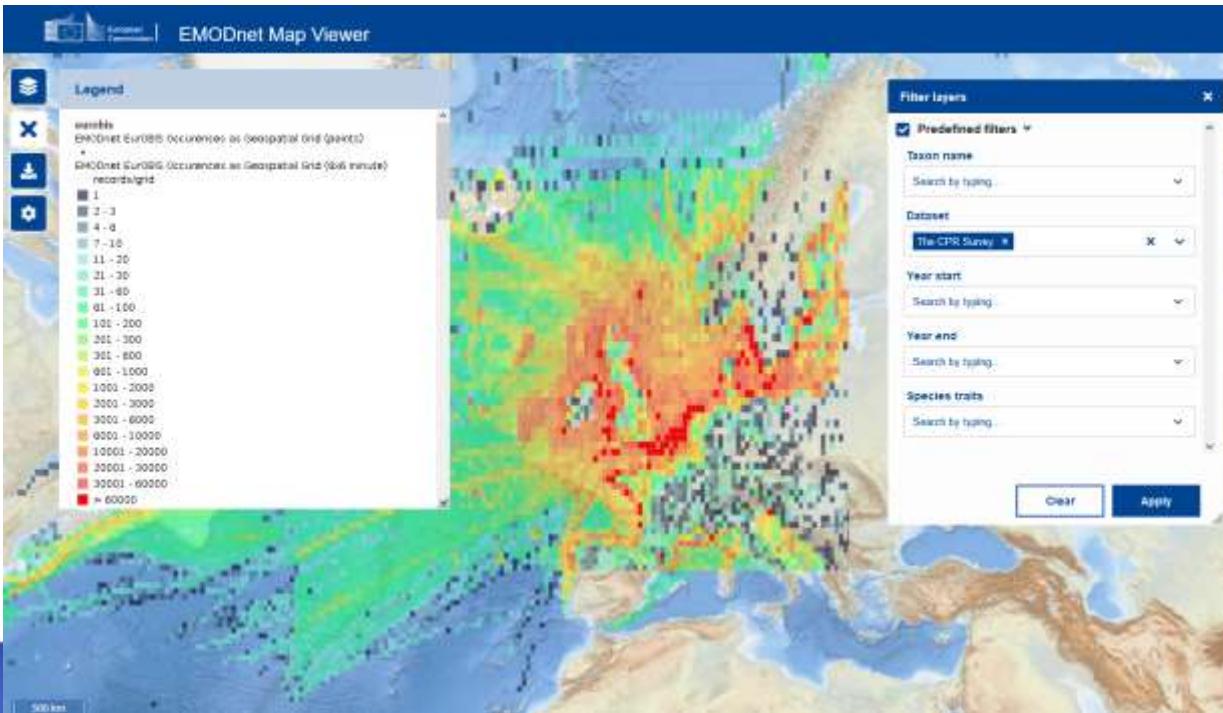

Product

- CF NetCDF
- Most products available in the EMODnet CP ERDDAP instance
 - <https://erddap.emodnet.eu/erddap/search/index.html?page=1&itemsPerPage=1000&searchFor=biology>
- Products available in the VLIZ and EMODnet CP Geoserver instances
 - <https://geo.vliz.be/geoserver/web/?0>
 - <https://ows.emodnet.eu/geoserver/web/?0>
- R Packages

What do we do in EMODnet Biology?

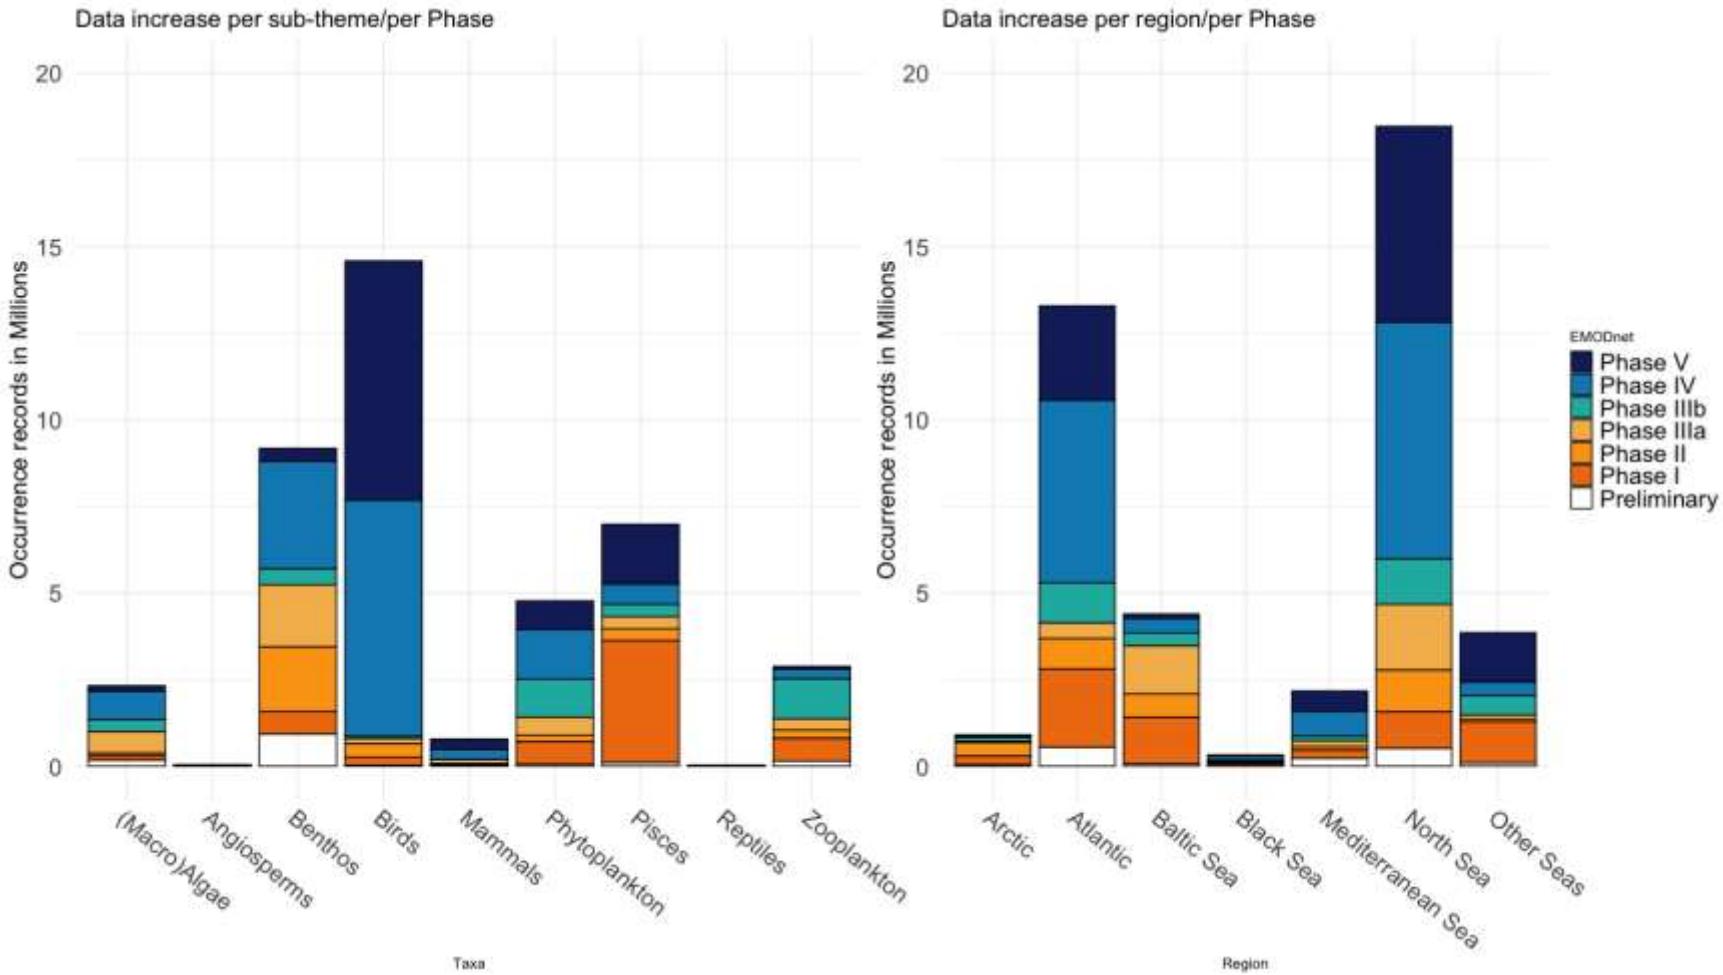

Data Publication

- 1325 datasets with data URLs
- > 40M occurrence records + > 96M extended Measurements or Facts
- Layer-> [EurOBIS database observations](#)

EMODnet Biology Evolution

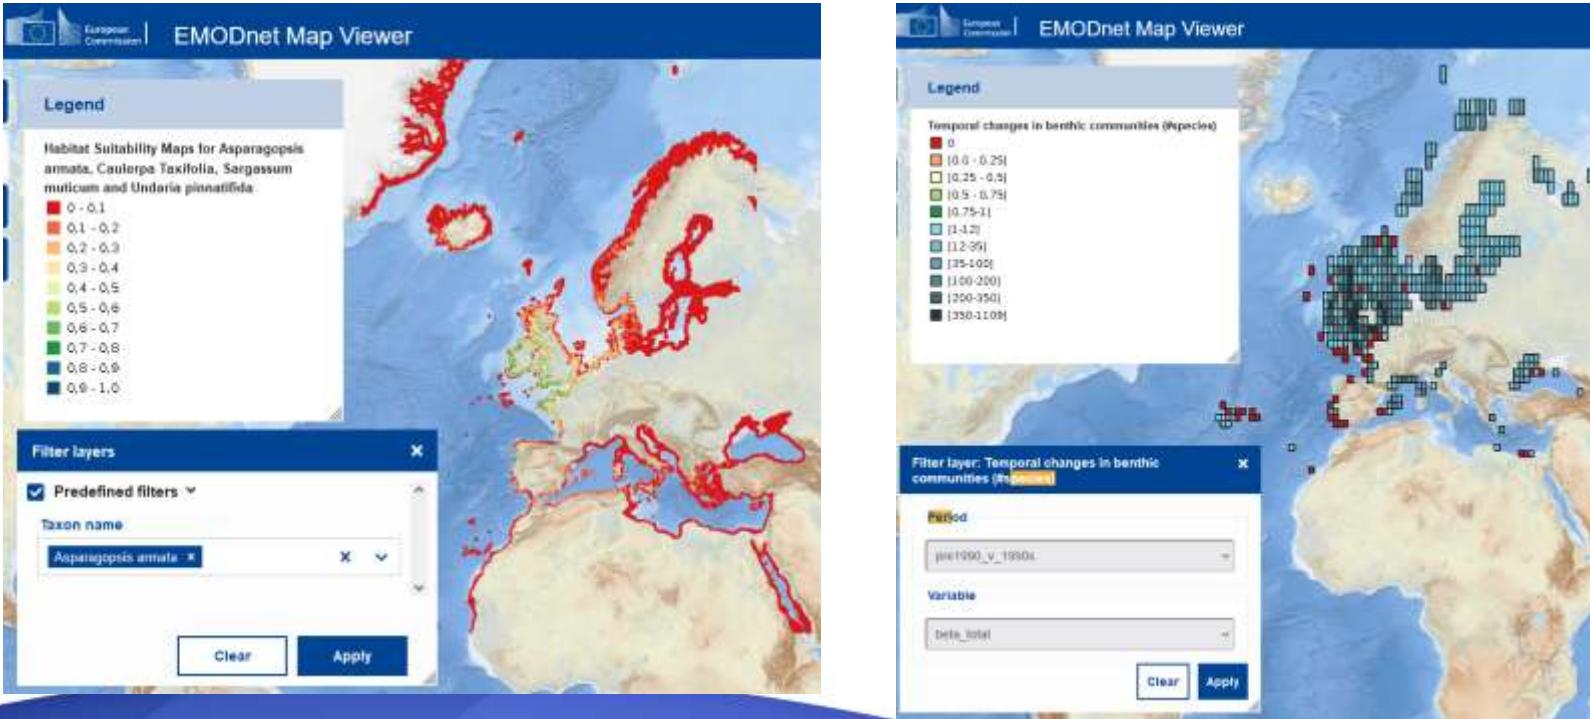

Data Publication

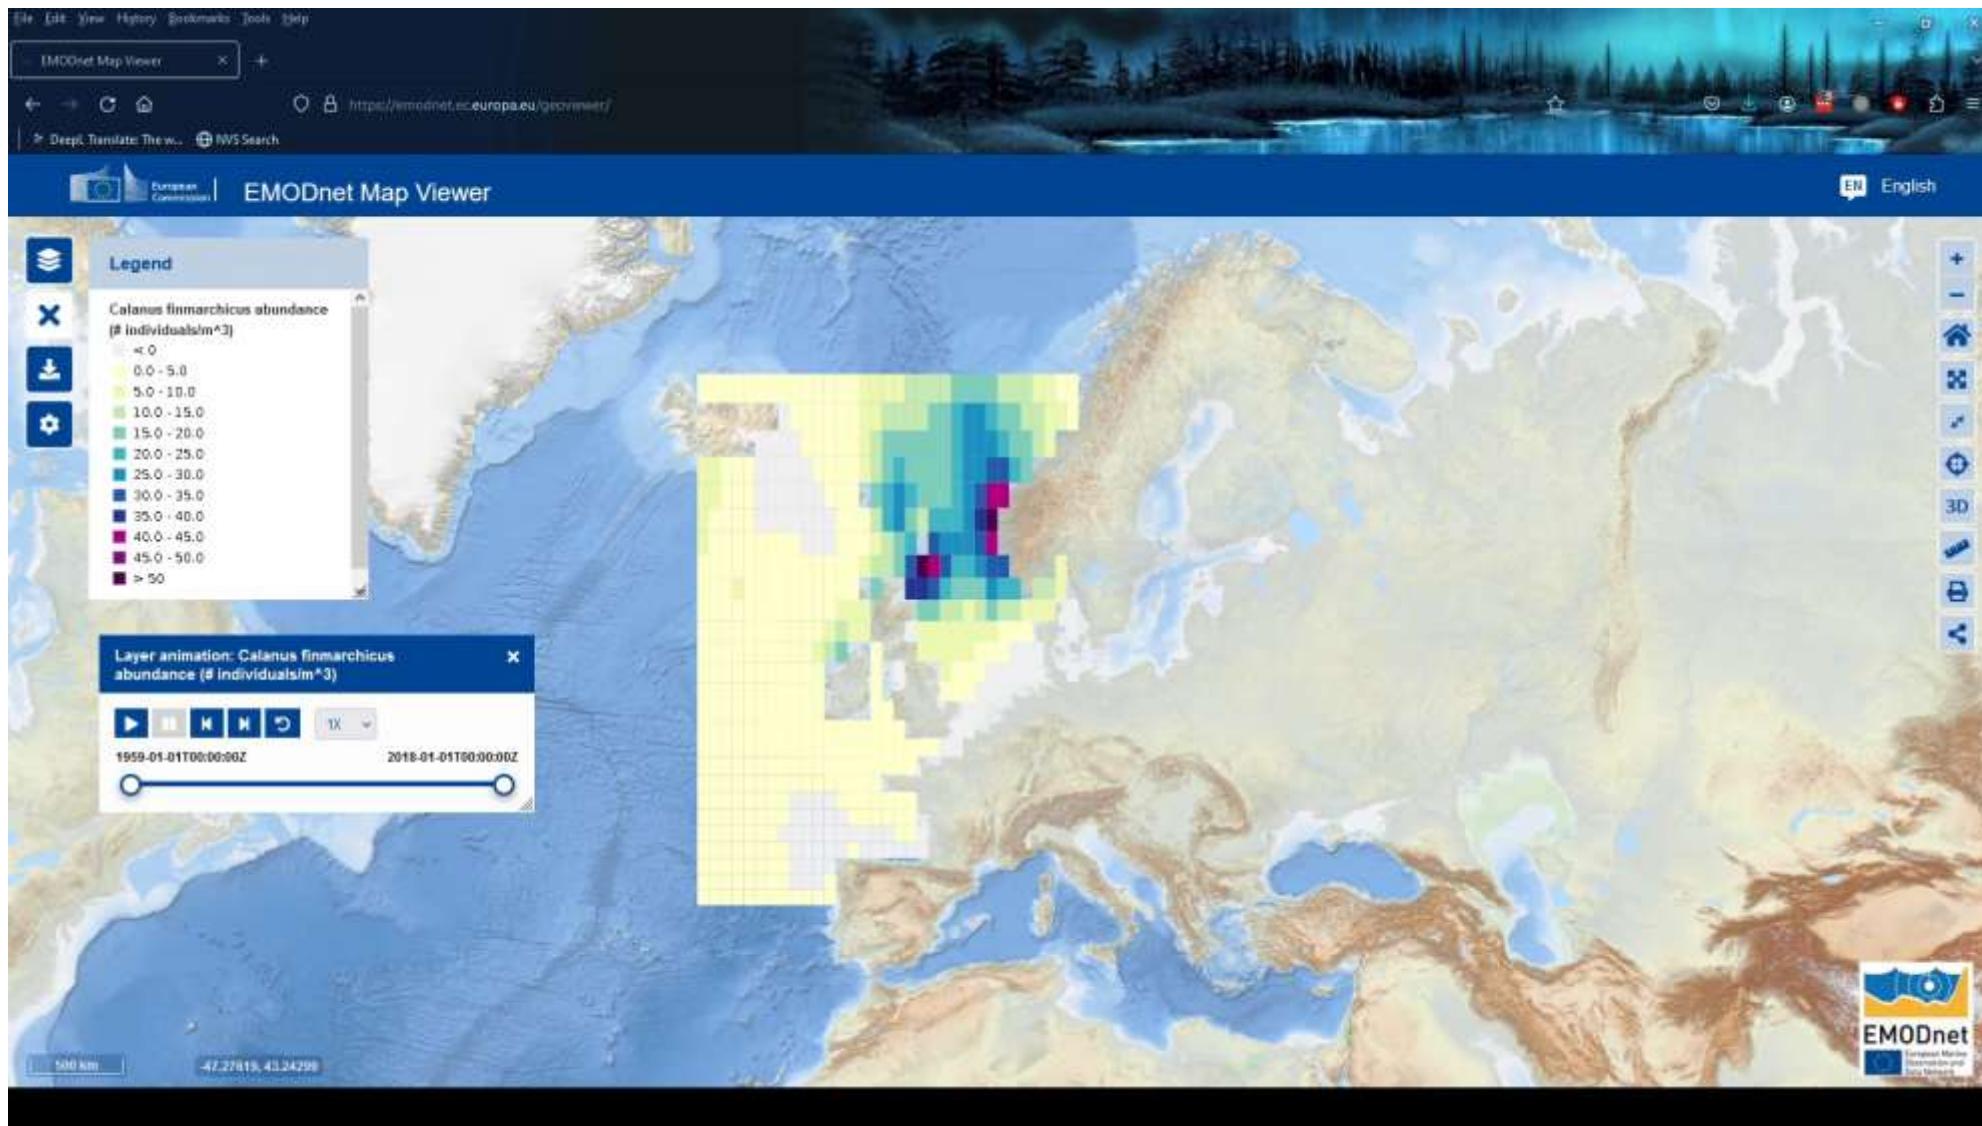

What do we do in EMODnet Biology?

Data Products

- 38 products (including 3 from external sources)
 - <https://emodnet.ec.europa.eu/geonetwork/srv/eng/catalog.search#/home>
- Layers available in the EMODnet viewer: 3 Benthos + 5 Fish + 1 Macroalgae + 2 Mammals + 3 Phytoplankton + 4 Zooplankton + 1 other taxa
- Consortium developed products are documented in GitHub repositories (<https://github.com/EMODnet>)

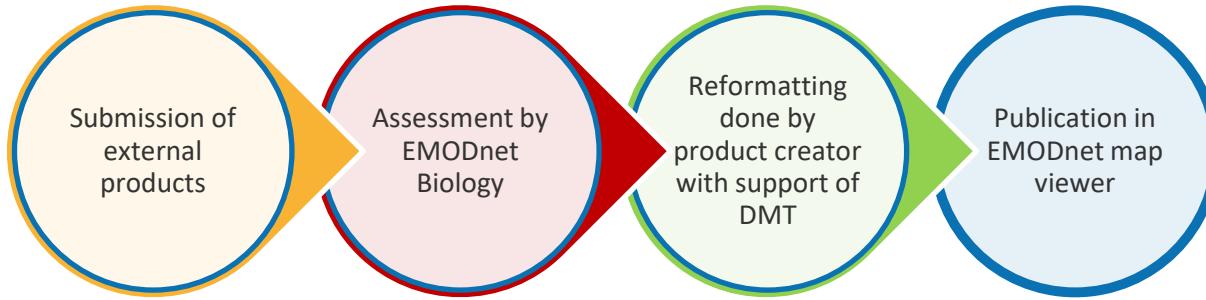

What do we do in EMODnet Biology?

Data Product

- Workflow for external products

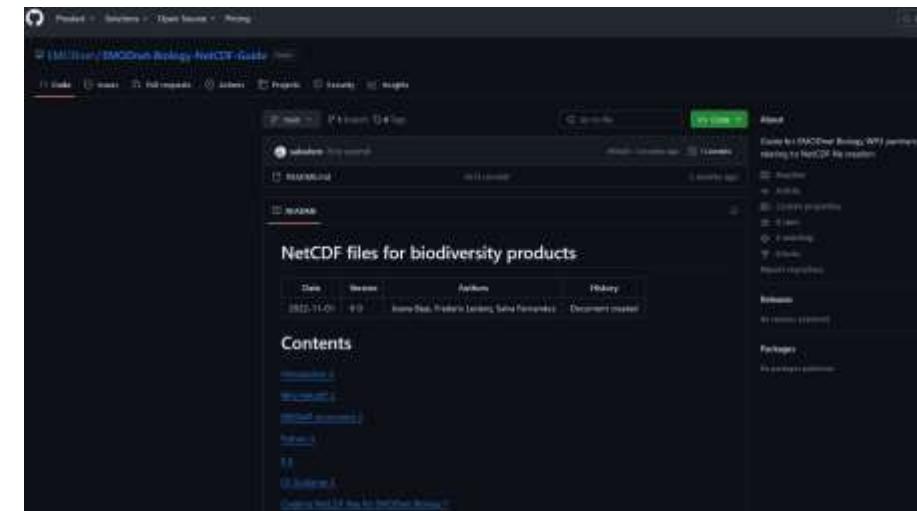

- Biodiversity product guidance available in the EMODnet GitHub repository
 - <https://github.com/EMODnet/EMODnet-Biology-NetCDF-Guide>

Guidelines, templates, tools

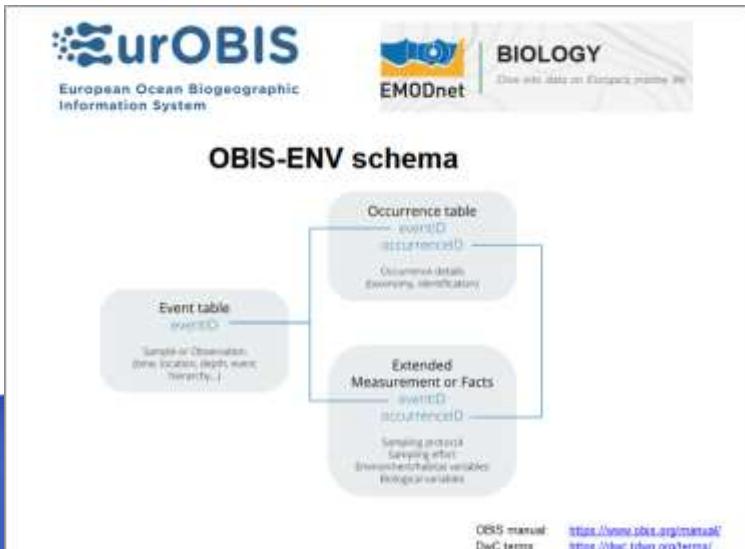

- Biology information
 - <https://emodnet.ec.europa.eu/en/biology#biology-key-services>
- Online self paced course
 - "Contributing datasets to EMODnet Biology"
 - <https://classroom.oceanteacher.org/enrol/index.php?id=958>
- Biodiversity data product creation guidance
 - <https://github.com/EMODnet/EMODnet-Biology-NetCDF-Guide>
- Templates: [DwC file](#)

The screenshot shows a dark-themed LMS interface. On the left, a sidebar lists 'Course sections', 'Participants', 'Badges', 'Certificates', 'Competences', and 'Grades'. Below the sidebar is a 'Home' button. The main content area has a blue header with the text 'Biodiversity, Observing Systems' and 'Contributing datasets to EMODnet Biology 2023'. It also displays '14.7 Sustainable Use Of Marine Resources.' and '14a Scientific Knowledge And Research'. A note indicates 'Offered in English'. At the bottom right, it says 'Training Center Belgium'.

The screenshot shows a dark-themed software interface for managing NetCDF files. The top navigation bar includes 'Product', 'Bioservices', 'Open Source', and 'About'. The main area is titled 'OBIS-ENV schema NetCDF files for biodiversity products'. It shows a list of files with columns for 'Date', 'Version', 'Actions', and 'History'. One file is selected, showing its 'Contents' which include 'eventID', 'occurrenceID', and 'samplingEvent'. The bottom right corner shows a 'Packages' section.

Tools

- VLIZ hosts and provides technical support for > 30 IPT instances
 - IPT for data sharing (<https://ipt.vliz.be/eurobis>)
- In collaboration with LifeWatch Belgium we developed a data QC tool
 - Available as an rshiny application (<https://rshiny.lifewatch.be/BioCheck/>) or
 - R Package (<https://github.com/EMODnet/EMODnetBiocheck>)
- We have developed R Packages for EMODnet webservices
 - For WCS services (<https://github.com/EMODnet/EMODnetWCS>) and
 - For WFS services (<https://github.com/EMODnet/EMODnetWFS>)
- Webservices
 - Data and products available via [VLIZ](#) or [EMODnet CP](#) Geoserver instances and via [EMODnet CP ERDDAP](#) instance
 - Guidance available via <https://github.com/EMODnet/EMODnet-Biology-Guidance>
